The listing of claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims:

- 11. (Currently amended) A composition for the treatment of diseased, injured or abnormal bone, said composition comprising an effective amount of a growth factor, and hyaluronic acid[[,]] and excipients to maintain biological activity of said factor, said composition being sufficient to enhance bone growth rate and magnitude and having a viscosity in the range of about 10 to 10<sup>6</sup> eP and biodegradability sufficient to persist upon application at a site of desired bone growth for a period of time sufficient to enhance said bone growth rate and magnitude.
- 12. (Original) A composition according to claim 11 wherein said viscosity is about 75,000 cP.
- 13. (Original) A composition according to claim 11 wherein said hyaluronic acid is uncrosslinked.
- 14. (Original) A composition according to claim 11 wherein said composition comprises 0.1 to 4% by weight of hyaluronic acid in solution.
- 15. (Original) A composition according to claim 11 wherein said growth factor comprises bFGF.
- 16. (Original) A composition according to claim 15 wherein said bFGF is present in said composition in a range of about  $10^{-6}$  to 100 mg/ml of said composition.
- 17. (Currently amended) A method of treating diseased, injured or abnormal bone at a site of desired bone growth comprising the step of applying to said site a composition comprising an effective amount of a mixture of hyaluronic acid, and a growth factor and excipients to maintain biological activity of said factor, said composition being sufficient to enhance bone growth rate and magnitude and having a viscosity in the range of about 10 to 10<sup>6</sup> cP and biodegradability sufficient to persist at said site for a period of time sufficient to enhance said bone growth rate and magnitude.
- 18. (Original) A method according to claim 17 wherein said viscosity is about 75,000 cP.
- 19. (Original) A method according to claim 17 wherein said hyaluronic acid is uncrosslinked.
- 20. (Original) A method according to claim 17 wherein said hyaluronic acid in said composition comprises about 0.1-4% by weight of said composition.
- 21. (Original) A method according to claim 17 wherein said growth factor comprises bFGF.

22. 10 <sup>-6</sup> to	(Original) o 100 mg/ml	A method in said con	according to	claim 21 w	herein said	bFGF is pre	sent in a r	ange of a	bout
